

RECRUITING FOR ORIENTEED SPAIN

Magento Developer

(Full remote)

Magento Developer (Full Remote)

DESCRIPTION

We are experts in e-commerce who work at an international level and guide brands towards their digital transformation, incorporating innovative technologies of leading platforms in the market.

We are looking for a Magento Developer to join our team and play a key role in technical e-commerce development projects. One of the projects you will be involved in is an international e-commerce, developed in Magento 2 OS with a headless architecture and a decoupled React PWA front-end.

MAIN TASKS:

- Development and integration of Magento fixes and extensions
- Compilation of information and analysis of the projects to be developed, including requirements gathering and project kick-off
- Tests development for the established components
- Development of documentation
- Resolution of incidences, requests and queries
- Estimation and reporting of required effort to team members and the Project Manager
- Adherence to quality and organization control standards of Orienteed and our clients

Magento Developer (Full Remote)

MAIN REQUIREMENTS

Essential:

- ★ At least 2 years of experience in Magento 2
- ★ Professional experience with Magento y PHP
- ★ Knowledge in creation of custom extensions for Magento
- ★ English: high level
